The water uses, or claims to the right to use water, of these persons or entities are subject to the laws of the State of New Mexico and the United States. This Court has exclusive jurisdiction to adjudicate all claims to the right to divert, store, or use public waters of the Zuni River stream system in New Mexico.

2. The persons or entities listed above have been identified by the Hydrographic Survey for Sub-areas 1, 2 & 3 (excluding Ramah) of the Zuni River stream system and may be diverting and using water associated with the subfile numbers listed, or may

otherwise be using or diverting surface or underground waters within the Zuni River stream system.

3. For the benefit of other parties, and by way of explanation, the United States asserts that motions to add additional defendants, dismiss defendants, correct defendants' names, and take other corrective action, are parts of an on-going process made necessary by the hydrographic survey, defendants' responses, and other kinds of new information received during the course of this adjudication. The United States advances such motions primarily for the purpose of ensuring that the Court's records indicate as accurately as possible the persons or entities that are parties to this case.
